YOUR FIRST FIVE MINUTES IN HQ

1 · MAKE IT YOURS

Prefs: pick a text size, turn on colorblind mode if you like, choose whether you get the Monday email.

2 · LOOK AROUND

Home shows what's next and what needs attention. **Gigs**, **Sets** and **Songs** are the rest of the tabs. Search with the magnifier.

3 · GET READY FOR A GIG

Open the gig's setlist → **>> Gig mode** once on Wi-Fi. Charts save for offline. Add your PDFs under **Songs**.

GOOD TO KNOW

- Always open HQ from the **Home Screen icon**, not from the browser.
- Nothing is permanent: deleted items go to the **Trash** with an **Undo** button.
- Something looks old or wrong? **Admin** → **Update app files now**, then close and reopen. Still stuck? **TrailerFolkBand@gmail.com** — tell us your device and send a screenshot.

The full guide has every feature, with screenshots, plus Gig mode, the Apple Pencil and page-turner pedal setup. Find it inside HQ: tap your photo (top right) → **Training docs**.
